Summary

Business Development Manager | EdTech Growth | Web
Development & IT Project Management

About Me:

I have over 10 years of experience managing a web studio, specializing in developing websites and mobile applications from scratch. For more than 3 years, I have worked as a Project Manager & Scrum Master, effectively leading teams, optimizing workflows, and delivering successful IT projects.

My goal is to develop, scale, and enhance IT and EdTech projects, attract partners, and create new opportunities for businesses and users.

Key Competencies:

- # IT & EdTech project development
- # Team and process management (Scrum, Agile)
- # Web and mobile application development
- # B2B & B2C sales, partnerships
- # Business process optimization

I have a full-cycle development team capable of handling projects of any complexity, including web platforms, mobile applications, CRM systems, online platforms, and social networks. We help launch end-to-end solutions – from concept to execution.

Additionally, I am open to collaborating as a consultant, providing expertise in IT & EdTech project development, team management, and business process optimization.

Open to new opportunities and exciting collaborations!
